3. Position mounting plate (A) on wall and mark location of two drywall anchors (D). Pre-drill holes for drywall anchors on wall. Then insert drywall anchors (D) into wall.
4. Attach mounting plate (A) to the junction box (Not included) using mounting screws (C) (Size: 8-32*1/2"L). The side of mounting plate marked "GND" must face out.

If your junction box has a ground wire (green or bare copper), connect fixture's ground wire to it. Otherwise, connect fixture's ground wire directly to mounting plate using green screw (B) provided.
7. Tuck wire connectors neatly into the junction box.
